### **Being Heartened by Hope through the Witness of those who Embraced their Sufferings**

**Presenter: Sister Michaela Hedican, OSB**

**“God offers us a future full of hope  
and human beings are the words God uses  
to tell the story of grace.”**

*- Mary Catherine Hilkert, OP*

Scripture holds the premiere stories of grace that teach us about embracing suffering and being heartened by hope.

This retreat will offer participants stories of Scripture as we glean how our ancestors in the faith tended chaos, confusion, loss, grief, and uncertainty. The basis of this retreat will be how they came to live in Hope.

### **Climbing in the Tree of Life:**

**St. Bonaventure's reflection on the life, death,  
and glorification of Jesus**

**Presenter: Shawn Colberg, PhD**

In this retreat, participants are invited to enjoy climbing in the Tree of Life, using St. Bonaventure's text the Tree of Life to guide us. In the 13th century, St. Bonaventure meditated on the life, death and glorification of Jesus and found it very fruitful for his spiritual life. We will reflect on these events in light of our own grief, suffering and loss through our present transitions. Each day we will ascend another branch of the Tree of Life through prayer, contemplative reading and shared conversation, with opportunities to reflect on our own lives.
