

Ecological Education

Goals: Promote and educate:

- Local and International groups working on adaptation and mitigation in biosystems.
- Identify things to do in local areas and financing options.
- Educate on single use plastic and connection to consumption and oil and gas pipeline.
- Learn about diseases of trees and plants with infestations of various insects and how to address this.
- Identify insect and plant invasive species to address.
- Learn about effects of insecticides, fertilizers and effects on creatures, water, plants and allow this to alter choices. Learn about new techniques and practices that farmers are doing to care for biodiversity, soil, microbes.
- Xeriscaping, not just zero, or total lawns.
- Workshops to learn about local biological systems and climate change.
 - Trees and new trees to plant that are not those previously
- Planning on the basis of effects:
 - Water quality and quantity concerns
 - Species extinction and endangerment and actions and spiritual aspects
- Planning on population shifts.
- Learn about areas that are experiencing things that we might experience in the future, learn from other areas and regions.
 - Sea level rise especially in countries that already addressing this.
 - Case studies of what is happening.

Resources:

- Films
- Books

Interfaith Climate Prayer in English and Spanish (La bendición climática)

We Hold the Earth

We hold brothers and sisters who suffer from storms and droughts intensified by climate change.

We hold all species that suffer.

We hold world leaders delegated to make decisions for life.

We pray that the web of life may be mended through courageous actions to limit carbon emissions.

We pray for right actions for adaptation and mitigation to help our already suffering earth community.

We pray that love and wisdom might inspire my actions and our actions as communities. . .

so that we may, with integrity, look into the eyes of brothers and sisters and all beings and truthfully say, we are doing our part to care for them and the future of the children.

May love transform us and our world with new steps toward life

Sostenemos la tierra

Sostenemos la tierra.

Sostenemos hermanos y hermanas quienes sufren de tormentas y sequías intensificadas por el cambio climático.

Sostenemos todas las especies que sufren.

Sostenemos líderes mundial delegados a tomar decisiones por la vida.

Rezamos que la red de la vida se pueda reparar a través de acciones valientes en limitar la emisión de carbono

Rezamos por acciones correctas en ajustacion y mitigación para ayudar nuestra comunidad mundial que sufre

Rezamos que el amor y sabiduría enspire mis acciones y nuestras acciones como comunidad...

para que podamos, con integridad, mirar a los ojos de los hermanos y hermanas y todos los seres y en verdad

digamos, estamos haciendo nuestra parte para cuidar de ellos y el futuro de los niños

Para que el amor nos transforme y el mundo con nuevos pasos hacia la vida.
